The convention will not be so large as many which have sat in Virginia. I will be one of surpassing interest in results. It will pass upon the question of lev son of the constitution. It will almost certainly endorse it. It will hus become certain that a constitutional convention will be held.

There will be some interesting contests in the convention over the adontion of a platform. The pary in the State is united on nearly all main questions. The platform will declare for the free coinage of silver, against trusts and against imperialism or expansion. The first wo planks will be adopted with no opposition of importance. The last will be edopted, but there will be Southing Syrap has been used for last will be adopted, but there will be years by millions of mothers for a fight. Senator Daniel has declared a fight. Senator Daniel has declared for expansion. There are thousands of democrats in Virginia ready to fight for any proposition laid down by the Senator. Some of them will be in the convention.

The State convention will be but the

But the question of holding a constitutional convention, upon which the people will tote when they elect local officers this year, is one of far more interes; It is formed democrats of the State that the convention proposition will carry, presupposing that it will be made a party issue by the Norfolk convention.

An extra session of the General Assembly for the purpose of arranging for the election of members of the convention to revise the constitution is thought by many to be a practical certainty. It appears to be the general belief that if an extra session be held it will be in June. will fix a date for the election of delgates to the convention which is to reise the constitution. In-deed, speaking generally, it is probable that the heat at the beginning will be greater than at the close. The State will nequestionably give the democratic electoral ticket an overwhelming ma-jority, and elect ten democratic Con-gressmen. The warm times will come early in the fall when nominations for Congress are made. In nearly every district in the State there promises to be a contest of unusual warmth. In

avery district the present Congressman is a candi late for re election. Although the gubernatorial contest is more than a year distant, it is already he subject of prophecy and partisanry. Yes, August Flower still bas the largest sale of any medicine in the civi-lized world Your mothers and grand-mothers never thought of using anything else for Indigestion or Biliousness. Doctors were scarce, and they seldom heard of Appendictis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and had with headaches and other aches.
